

## GSI Universal MiniCentrifuge

GSI Universal Mini Centrifuges are ideal for general centrifuge, quick spin downs and micro filtration. Each unit is supplied with a 6 x 1.5/2.0 ml rotor and adapters for 0.5 and 0.4 ml tubes as well as a rotor that will hold 2 x 0.2 ml strip tubes that are used for thermal cycling and other 8-strip centrifuge tubes. Maximum speed for the mini centrifuge is 6000 rpm, corresponding to 2000 x g in the six place rotor. Each unit has an on/off switch allowing the user to stop the motion of the rotor before opening the centrifuge lid. A new lid hinge design incorporates a stainless steel pin for durability. The small footprint allows the centrifuge to fit on even the most crowded bench, making it a truly personal unit.

### Features:

- For 1.5ml, 2.0 ml and 0.2 ml single or strip tubes
- On/off switch
- Durable polycarbonate lid hinge and ABS resin body
- General centrifuge, quick spin downs and micro filtration
- Starts and stops in seconds
- Compact designed personal micro-centrifuge
- **Best Low Price**
