Name	Desmopressin Acetate
Cat #	PP-1180
Size	1 g, 10 g, 100 g and bulk custom packages
CAS#	16679-58-6
Mol. Mass	1069.22
Formula	C ₄₆ H ₆₄ N ₁₄ O ₁₂ S ₂
Sequence	Mpr-Tyr-Phe-Gln-Asn-Cys-Pro-D-Arg-Gly-NH ₂ (Disulfide bridge: Mpr1-Cys6)
Purity	
Appearance	
General Information	Desmopressin is a synthetic replacement for antidiuretic hormone, the hormone that reduces urine production during sleep. Desmopressin is a modified form of the normal human hormone arginine vasopressin.
