### Product Data Sheet

---

**Cat#:** SP-100033-5  
**Description:** [D-Pro2,D-Trp6,8,Nle10]-Neurokinin B [Asp-D-Pro-His-Asp-Phe-D-Trp-Val-D-Trp-Leu-Nle-NH2;  
MW: 1326.53]  
**Size:** 5 mg  
**Purity:** >95%  
**Form:** Powder  
**Store:** Desiccated at -20oC.

---

Neurokinins are part of the tachykinin family of peptides and neuromedins. Neurokinin A and B were originally isolated from porcine spinal cord. Neurokinins (substance P, neurokinin A, neurokinin B) and the neurokinin receptors - NK1 and NK3 - are largely expressed in the nucleus of the solitary tract (NST), where they are involved in the central regulation of visceral function. Neurokinin A is involved in hematopoietic regulation while Neurokinin B is known for its role as the mediator of pain transmission
